Before installing this product, be sure to read the "CAUTIONS" and "INSTALLATION REQUIREMENTS" sections.

Keep this manual close at hand for reference whenever needed.

Please see opposite side to access to "Software Setup Guide" and "Sharpdesk Installation Guide".

These manuals are combined for environmental protection.
**Caution!**
For complete electrical disconnection, pull out the main plug.
The socket-outlet shall be installed near the equipment and shall be easily accessible.

Shielded interface cables must be used with this equipment to maintain compliance with EMC regulations.

---

### Required in IEC-950 (EN 60 950) - Europe
- The equipment should be installed near an accessible socket outlet for easy disconnection.

### Required in Appendix ZB of BS 7002 (En 60 950) — United Kingdom

**MAINS PLUG WIRING INSTRUCTIONS**
The mains lead of this equipment is already fitted with a mains plug which is either a non-rewireable (moulded) or a rewireable type. Should the fuse need to be replaced, a BSI or ASTA approved fuse to BS1362 marked [ ] or [ ] and of the same rating as the one removed from the plug must be used.
Always refit the fuse cover after replacing the fuse on the moulded plug. Never use the plug without the fuse cover fitted.
In the unlikely event of the socket outlet in your home not being compatible with the plug supplied either cut-off the moulded plug (if this type is fitted) or remove by undoing the screws if a rewireable plug is fitted and fit an appropriate type observing the wiring code below.

**DANGER:** The fuse should be removed from the cut-off plug and the plug destroyed immediately and disposed of in a safe manner. Under no circumstances should the cut-off plug be inserted elsewhere into a 13A socket outlet as a serious electric shock may occur.

To fit an appropriate plug to the mains lead, follow the instructions below:

**IMPORTANT:** The wires in this mains lead are coloured in accordance with the following code:

- **GREEN-AND-YELLOW:** Earth
- **BLUE:** Neutral
- **BROWN:** Live

As the colours of the wires in this mains lead may not correspond with coloured markings identifying the terminals in your plug, proceed as follows:
The wire which is coloured **GREEN-AND-YELLOW** must be connected to the terminal in the plug which is marked with the letter **E**, or by the safety earth symbol [ ] , or coloured green or green-and-yellow.
The wire which is coloured **BLUE** must be connected to the terminal which is marked with the letter **N** or coloured black.
The wire which is coloured **BROWN** must be connected to the terminal which is marked with the letter **L** or coloured red.

If you have any doubt, consult a qualified electrician.

**WARNING:** THIS APPARATUS MUST BE EARTHED.

---

**EMC (this machine and peripheral devices)**

**Warning:**
This is a Class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

This machine contains the software having modules developed by Independent JPEG Group.

This product includes Adobe® Flash® technology of Adobe Systems Incorporated.
Copyright© 1995-2007 Adobe Macromedia Software LLC. All rights reserved.
For the users of the fax function

**FAX interface cable and Line cable:**
These special accessories must be used with the device.

The Declaration of Conformity can be viewed at the following URL address.

### Note:
- Considerable care has been taken in preparing this manual. If you have any comments or concerns about the manual, please contact your dealer or nearest authorised service representative.
- This product has undergone strict quality control and inspection procedures. In the unlikely event that a defect or other problem is discovered, please contact your dealer or nearest authorised service representative.
- Aside from instances provided for by law, SHARP is not responsible for failures occurring during the use of the product or its options, or failures due to incorrect operation of the product and its options, or other failures, or for any damage that occurs due to use of the product.
- This manual contains references to the fax function. However, please note that the fax function is not available in some countries and regions.

### Energy Star

Products that have earned the ENERGY STAR® are designed to protect the environment through superior energy efficiency.

The products that meet the ENERGY STAR® guidelines carry the logo shown above. The products without the logo may not meet the ENERGY STAR® guidelines.

### Warranty

While every effort has been made to make this document as accurate and helpful as possible, SHARP Corporation makes no warranty of any kind with regard to its content. All information included herein is subject to change without notice. SHARP is not responsible for any loss or damages, direct or indirect, arising from or related to the use of this operation manual.

©Copyright SHARP Corporation 2008. All rights reserved. Reproduction, adaptation or translation without prior written permission is prohibited, except as allowed under copyright laws.
CAUTIONS

1. Do not touch the transfer belt. Scratches or smudges on the transfer belt will cause dirty prints.
2. The fusing unit is extremely hot. Exercise care in this area.
3. Do not look directly at the light source. Doing so may damage your eyes.
4. When the machine is installed, the adjusters (4) must be lowered to the floor to secure the machine (prevent it from moving).
   Rotate the adjusters in the locking direction until they are in firm contact with the floor.
   If you find it necessary to reposition the machine due to rearrangement of your office layout or other reason, retract the adjusters from the floor, turn off the power, and then move the machine.
   (After moving the machine, lower the adjusters again to secure the machine.)
5. Do not make any modifications to this machine. Doing so may result in personal injury or damage to the machine.
6. The machine is heavy. To prevent injury when moving the machine, it is recommended that it be moved by four or more persons.
7. Do not make copies of anything which is prohibited from copying by law. The following items are normally prohibited from printing by national law. Other items may be prohibited by local law.
   - Money
   - Stamps
   - Bonds
   - Stocks
   - Bank drafts
   - Checks
   - Passports
   - Driver’s licences
8. Do not use a flammable spray to clean the machine. If gas from the spray comes in contact with hot electrical components or the fusing unit inside the machine, fire or electrical shock may result.
9. Do not throw toner, a toner container (toner cartridge), or a waste toner box into a fire. Toner may fly and cause burns.
10. Store toner, toner containers (toner cartridges), and waste toner boxes out of the reach of children.

The machine includes the document filing function, which stores document image data on the machine’s hard drive. Stored documents can be called up and printed or transmitted as needed. If a hard drive failure occurs, it will no longer be possible to call up the stored document data. To prevent the loss of important documents in the unlikely event of a hard drive failure, keep the originals of important documents or store the original data elsewhere.
With the exception of instances provided for by law, Sharp Corporation bears no responsibility for any damages or loss due to the loss of stored document data.

"BATTERY DISPOSAL"
THIS PRODUCT CONTAINS A LITHIUM PRIMARY MEMORY BACK-UP BATTERY THAT MUST BE DISPOSED OF PROPERLY. PLEASE CONTACT YOUR LOCAL SHARP DEALER OR AUTHORISED SERVICE REPRESENTATIVE FOR ASSISTANCE IN DISPOSING OF THIS BATTERY.

Each instruction also covers the optional units used with these products.
CAUTIONS

Laser information

| Wave length  | 790 nm ±10 nm |
| Pulse times (North America and Europe) | 4.9 µs ±4.9 ns /7 mm |
| Output power | Max 0.6 mW (LD1+LD2) |

Caution
Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

This Digital Equipment is CLASS 1 LASER PRODUCT (IEC 60825-1 Edition 1.2-2001)

For North America:

SAFETY PRECAUTIONS

This Digital Equipment is rated Class 1 and complies with 21 CFR 1040.10 and 1040.11 of the CDRH standards. This means that the equipment does not produce hazardous laser radiation. For your safety, observe the precautions below.

• Do not remove the cabinet, operation panel or any other covers.
• The equipment's exterior covers contain several safety interlock switches. Do not bypass any safety interlock by inserting wedges or other items into switch slots.

For Europe:

CLASS 1 LASER PRODUCT
LASER KLASSE 1
LUOKAN 1 LASERLAITE
KLASS 1 LASERAPPARAT
INSTALLATION REQUIREMENTS

Improper installation may damage this product. Please note the following during initial installation and whenever the machine is moved.

1. The machine should be installed near an accessible power outlet for easy connection.

2. Be sure to connect the power cord only to a power outlet that meets the specified voltage and current requirements. Also make certain the outlet is properly grounded.
   • For the power supply requirements, see the name plate in the lower left corner of the left side of the machine.

   Connect the machine to a power outlet which is not used for other electric appliances. If a lighting fixture is connected to the same outlet, the light may flicker.

3. Do not install the machine in areas that are:
   • damp, humid, or very dusty
   • exposed to direct sunlight
   • poorly ventilated
   • subject to extreme temperature or humidity changes, e.g., near an air conditioner or heater.

4. Be sure to allow the required space around the machine for servicing and proper ventilation.

5. The machine includes a built-in hard drive. Do not subject the machine to shock or vibration. In particular, never move the machine while the power is on.

A small amount of ozone is produced within the printer during operation. The emission level is insufficient to cause any health hazard.

NOTE:
The present recommended long term exposure limit for ozone is 0.1 ppm (0.2 mg/m³) calculated as an 8 hr. time-weighted average concentration. However, since the small amount that is emitted may have an objectionable odor, it is advisable to place the copier in a ventilated area.
SUPPLIES

Standard supplies for this product that can replaced by the user include paper, toner cartridges, and staple cartridges for the finisher.
Be sure to use only SHARP-specified products for the toner cartridges, finisher staple cartridge, saddle stitch finisher staple cartridge, and transparency film.

For best copying results, be sure to use only Sharp Genuine Supplies which are designed, engineered, and tested to maximize the life and performance of Sharp products. Look for the Genuine Supplies label on the toner package.

Storage of supplies

Proper storage
1. Store the supplies in a location that is:
   • clean and dry,
   • at a stable temperature,
   • not exposed to direct sunlight.
2. Store paper in the wrapper and lying flat.
3. Paper stored in packages standing up or out of the wrapper may curl or become damp, resulting in paper misfeeds.

Storing toner cartridges
Store a new toner cartridge box horizontally. Do not store it standing on end. If stored standing on end, the toner may not distribute well even after shaking the cartridge vigorously, and will remain inside the cartridge without flowing out.

Staple cartridge
The finisher and saddle stitch finisher require the following staple cartridge:
MX-SCX1 (for finisher and saddle stitch finisher)
Approx. 5000 per cartridge x 3 cartridges
AR-SC3 (for saddle stitch finisher only)
Approx. 2000 per cartridge x 3 cartridges

Supply of spare parts and consumables
The supply of spare parts for repair of the machine is guaranteed for at least 7 years following the termination of production. Spare parts are those parts of the machine which may break down within the scope of the ordinary use of the product, whereas those parts which normally exceed the life of the product are not to be considered as spare parts. Consumables too, are available for 7 years following the termination of production.

</tr>
</tbody>
</table>

### Printing resolution

- 600 x 600 dpi

### Scanning gradation

- 256 levels

### Printing gradation

- Equivalent to 256 levels

### Original sizes / types

- Max. A3 (11" x 17") / sheets, bound documents

### Copy sizes

- Maximum: A3W (12" x 18")
- Minimum: A5R (5-1/4" x 5-3/4")

### Print margins

- Leading edge / trailing edge: total 8 mm (21/64") or less,
- Near edge / far edge: total 4 mm ±2 mm (11/64" ±3/32") or less

### Warm-up time

- 60 seconds or less (at room temperature of 73.4°F (23°C) and rated voltage)

### First-copy time*

- Colour copy time: 8.9 seconds or less
- Black and white copy time: 6.0 seconds or less
- (Portrait feeding of A4 (8-1/2" x 11") sheets from 1st paper tray. Excluding the first page output after the power is turned on.)

### Copy ratios

- Variable: 25% to 400% in increments of 1%, total 376 increments (25% to 200% when the automatic document feeder is used)
- Fixed presets: 25%, 50%, 70%, 81%, 86%, 100%, 115%, 122%, 141%, 200% and 400% for AB sizes;
- 25%, 50%, 64%, 77%, 100%, 121%, 129%, 200% and 400% for inch sizes.
- Two reduction ratios and two enlargement ratios can be stored.

### Continuous copy

- 999 copies

### Automatic document feeder

- See "Automatic document feeder specifications".

### Tray 1 / Tray 2

- Paper sizes: A3, B4, A4, A4R, B5, B5R, A5R, 11" x 17", 8-1/2" x 14", 8-1/2" x 13-1/2", 8-1/2" x 13-2/5", 8-1/2" x 13", 8-1/2" x 11", 8-1/2" x 11"R, 7-1/4" x 10-1/2"R, 5-1/2" x 8-1/2"R, 8K, 16K, 16KR
  
- Paper weight: Plain paper (60 g/m² to 105 g/m² (16 lbs. to 28 lbs.)), heavy paper (106 g/m² to 209 g/m² (28 lbs. bond to 110 lbs. index))
- Paper capacity: Plain paper (80 g/m² (21 lbs.)) 500 sheets, heavy paper 200 sheets
- Paper types: SHARP-recommended plain paper, recycled paper, coloured paper, and heavy paper

* First copy out time is measured with original on the document glass in full ready condition with fuser at operating temperature and mirror motor at operating speed in each of black and white mode and colour mode, actual time may vary based on environment conditions.

---

*1 Transmission speed is for an A4 or 8-1/2" x 11" document with approximately 700 characters at standard resolution (8 x 3.85 lines/mm) sent in high speed mode (33.6 kbps (JBIG) or 14.4 kbps). This is only the time required to transmit the image information; the time required to send protocol signals is not included. Actual transmission times will vary depending on the contents of the document, the receiving machine type, and telephone line conditions.

*2 Total number of all destinations (Scan to E-mail, Scan to FTP, Scan to Desktop, Scan to Network folder, Internet Fax, Fax and Group)
INFORMATION ON DISPOSAL

A. Information on Disposal for Users (private households)

1. In the European Union
Attention: If you want to dispose of this equipment, please do not use the ordinary dust bin!
Used electrical and electronic equipment must be treated separately and in accordance with legislation that requires proper treatment, recovery and recycling of used electrical and electronic equipment.
Following the implementation by member states, private households within the EU states may return their used electrical and electronic equipment to designated collection facilities free of charge*. In some countries* your local retailer may also take back your old product free of charge if you purchase a similar new one.
*) Please contact your local authority for further details.
If your used electrical or electronic equipment has batteries or accumulators, please dispose of these separately beforehand according to local requirements.
By disposing of this product correctly you will help ensure that the waste undergoes the necessary treatment, recovery and recycling and thus prevent potential negative effects on the environment and human health which could otherwise arise due to inappropriate waste handling.

2. In other Countries outside the EU
If you wish to discard this product, please contact your local authorities and ask for the correct method of disposal.
For Switzerland: Used electrical or electronic equipment can be returned free of charge to the dealer, even if you don’t purchase a new product. Further collection facilities are listed on the homepage of www.swico.ch or www.sens.ch.

B. Information on Disposal for Business Users.

1. In the European Union
If the product is used for business purposes and you want to discard it:
Please contact your SHARP dealer who will inform you about the take-back of the product. You might be charged for the costs arising from take-back and recycling. Small products (and small amounts) might be taken back by your local collection facilities.
For Spain: Please contact the established collection system or your local authority for take-back of your used products.

2. In other Countries outside the EU
If you wish to discard of this product, please contact your local authorities and ask for the correct method of disposal.
Information that the administrator of the machine requires is printed on the back of this page.
(Separate this page from the manual and keep it in a safe place. In addition, fill in the name of the administrator and the administrator's contact information in the left hand margin.)
TO THE ADMINISTRATOR OF THE MACHINE

(Separate this page from the manual and keep it in a safe place.)

Factory default passwords

When accessing the system settings, the administrator password is required to log in with administrator rights. The system settings can be configured in the Web pages as well as on the operation panel. To access the system settings using the Web pages, a password is also required.

Factory default administrator password

Factory default setting: admin

Store a new administrator password as soon as the machine is installed. Once the administrator password has been changed, the new password is required to restore the factory default password. Take care to remember the new password.

Factory default passwords (Web pages)

There are two factory default accounts: "Administrator" and "User". A person who logs in as an "Administrator" can configure all settings in the Web pages. In addition, an administrator can restrict access to other settings by enabling "User" accounts.

The factory default passwords are shown below.

<table>
<thead>
<tr>
<th>Factory default account</th>
<th>Factory default password</th>
</tr>
</thead>
<tbody>
<tr>
<td>User</td>
<td>users</td>
</tr>
<tr>
<td>Administrator</td>
<td>admin</td>
</tr>
</tbody>
</table>

Forwarding all transmitted and received data to the administrator (document administration function)

This function is used to forward all data transmitted and received by the machine to a specified destination (Scan to E-mail address, Scan to FTP destination, Scan to Network Folder destination, or Scan to Desktop destination). This function can be used by the administrator of the machine to archive all transmitted and received data. To configure the document administration settings, click [Application Settings] and then [Document Administration Function] in the Web page menu. (Administrator rights are required.)

Note:
- The format, exposure, and resolution settings of transmitted and received data remain in effect when the data is forwarded.
- When forwarding is enabled for data sent in fax mode,
  - The [Direct TX] key does not appear in the touch panel.
  - Quick online transmission and dialling using the speaker cannot be used.

For the users of the fax function

Important safety instructions

- If any of your telephone equipment is not operating properly, you should immediately remove it from your telephone line, as it may cause harm to the telephone network.
- The AC power outlet shall be installed near the equipment and shall be easily accessible.
- Never install telephone wiring during a lightning storm.
- Never install telephone jacks in wet locations unless the jack is specifically designed for wet locations.
- Never touch uninsulated telephone wires or terminals unless the telephone line has been disconnected at the network interface.
- Use caution when installing or modifying telephone lines.
- Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
- Do not use a telephone to report a gas leak in the vicinity of the leak.
- Do not install or use the machine near water, or when you are wet. Take care not to spill any liquids on the machine.
- Save these instructions.

Installing SHARP TWAIN AR/DM

SHARP TWAIN AR/DM cannot be used in Windows Vista.

1. Quit any software applications and/or resident programs that are running on your computer.

2. Click "Uninstall a program".

   - In Windows 98/Me/2000, double click "Add/Remove Programs".
   - In Windows XP, double click "Add or Remove Programs".

3. DM (from the list and uninstall the application.
   - In Windows 98/Me/2000, double click "Add/Remove Programs".
   - In Windows XP, double click "Add or Remove Programs".

4. Click the CD-ROM icon and select "Open from the File" menu.

5. Double-click the "Twain" folder, and then double-click the "Setup" ( ).

6. Follow the instructions on the screen.

   - Double-click the "Twain" folder, and then double-click the "Setup" ( ).

Uninstalling the Software Program

To remove the software, follow the steps below.

- When Sharpdesk is uninstalled, Network Scanner Tool is also uninstalled. Note that if Network Scanner Tool is uninstalled, you will no longer be able to directly receive image data from the Digital Laser Copier/Printer.
- If a user-created file is saved in the Sharpdesk Desktop folder when Sharpdesk is uninstalled, the Sharpdesk Desktop folder will not be deleted when Sharpdesk is uninstalled.
- Removing SHARP TWAIN AR/DM will not delete the spooler folder which stores image data.
- If you uninstall Sharpdesk Imaging in Windows 98/Me/2000, you will not be able to open image files unless you re-install the Windows accessory Imaging for Windows.
- If you uninstall Sharpdesk Imaging in Windows 98/Me/2000, the Sharpdesk Imaging icon will also be uninstalled.

Uninstalling the Software Program from the Control Panel

1. Insert the Disc 1 CD-ROM into your CD-ROM drive.

2. Quit any software applications and/or resident programs that are running on your computer.

3. Click the "Start" button and then click "My Computer" ( ).

4. Click the CD-ROM icon ( ) and select "Open from the File" menu.

5. Double-click the "Twain" folder, and then double-click the "Setup" ( ).

6. Follow the instructions on the screen.

To remove the software, follow the steps below.

- Double-click the "Twain" folder, and then double-click the "Setup" ( ).

Uninstalling the Software Program from the Control Panel

1. Click "Control Panel" in the "start" menu.

2. Click "Uninstall a program".

   - In Windows 98/Me/2000, double click "Add/Remove Programs".
   - In Windows XP, double click "Add or Remove Programs".

3. Select the application that you wish to delete ("Sharpdesk" or "SHARP TWAIN AR/DM") from the list and uninstall the application.
When the "Customer Information" window appears, enter the serial number that appears on the cover of this manual, and click the "Next" button. Follow the on-screen instructions to create an index database. For detailed information, see the Sharpdesk Installation Guide.

If you select "Typical" in the Setup Type selection screen, Network Scanner Tool will also be installed. If you only wish to install Network Scanner Tool, select "Custom" in the Setup Type selection screen and then install Network Scanner Tool.

When Network Scanner Tool setup is finished, the "Search Setup Wizard" appears. Follow the on-screen instructions to create an index database. For detailed information, see the Sharpdesk Installation Guide and Sharpdesk User's Guide.

Sharpdesk Imaging is a version of Eastman Software's Imaging for Windows Professional Edition that has been customized by the Sharp Corporation.

Sharpdesk Imaging is installed together with Sharpdesk. If Imaging for Windows was previously installed, Sharpdesk Imaging will overwrite Imaging for Windows.

If Sharpdesk Imaging has already been installed on your computer, Sharpdesk Imaging will not be installed.

If Eastman Software's Imaging for Windows Professional Edition has been installed previously, Sharpdesk Imaging is installed together with Sharpdesk. If Imaging for Windows was previously installed, the Imaging for Windows control panel will also be installed. If you select "Typical" in the Setup Type selection screen, Network Scanner Tool will also be installed.

Follow the instructions on the screen.
Installing the Software Program

Note the following when installing the software program from the CD-ROM:

● Be sure to check the system requirements for installation of each of the software programs in the user's guides and on the Information screen during installation.

● The user's guides give detailed instructions for installing and setting up the programs. Be sure to read the user's guides and on the Information screen during installation.

● If you are going to scan an original scanned with the Digital Laser Copier/Printer to a computer (Scan to Desktop), Network Scanner Tool must be installed.

● If you perform a standard installation of Sharpdesk (select “Typical” in the Setup Type selection screen), Network Scanner Tool will be also be installed. Alternatively, you can also select “Custom” installation and install only Network Scanner Tool.

● If you intend to install SHARP TWAIN AR/DM, install Network Scanner Tool first. SHARP TWAIN AR/DM cannot be installed alone.

● The contents of the Information screens that appear during installation can also be found in the ReadMe files on the CD-ROM. The ReadMe file for Sharpdesk is located in the root folder of the CD-ROM, and the ReadMe file for SHARP TWAIN AR/DM is located in the Twain folder.

Installing Sharpdesk and Network Scanner Tool

1 Quit any software applications and/or resident programs that are running on your computer.

2 Insert the “Disc 1” CD-ROM into your CD-ROM drive.

3 Click the “Start” button ( ) and then click “My Computer”.

4 Double click the CD-ROM icon ( ). If the Sharpdesk installation screen does not appear, proceed to step 5.

5 Follow the instructions on the screen.
The Manual folder in the CD-ROM contains user's guides (in PDF format) for each of the software programs.

- Sharpdesk Installation Guide
- Sharpdesk User's Guide
- Network Scanner Tool User's Guide
- SHARP TWAIN AR/DM User's Guide

In addition to explaining how to use the programs, the user's guides also give detailed instructions for installing and setting up the programs. Be sure to read the user's guides before installing the programs.
The CD-ROM contains the following software programs:

**Sharpdesk CD-ROM (for Windows)**

- Sharpdesk CD-ROM (for Windows)
- The CD-ROM imports image data from a TWAIN interface into a TWAIN-compliant application. SHARP TWAIN imports image data from a TWAIN interface into a TWAIN-compliant application.

**Sharpdesk CD-ROM (for Windows)**

- Sharpdesk (Desktop Document Management Software)
- Network Scanner Tool
- SHARP TWAIN AR/DM (Twain driver)

* Sharpdesk can only be installed on the number of computers indicated in "Sharpdesk Serial Numbers" on the cover of this manual. If you need to install Sharpdesk on additional computers, please purchase the optional license kit.

If the version of the software on the CD-ROM in the license kit is different from the version of the software on the CD-ROM that accompanies the machine, it is recommended that you use the newest version of the software.

For detailed information on each of the software programs, please refer to the user's guides on the CD-ROM. To view the manual, Adobe Reader is required. If neither program is installed on your computer, the programs can be downloaded from the following URL:

http://www.adobe.com/
Please read

This Sharpdesk Installation Guide assumes that the person who will install the product and the users of the product have a working knowledge of Microsoft Windows.

- For detailed information on the software in the CD-ROM, please view the user's guide (PDF format) that is included on the CD-ROM.
- For information on the operating system, please refer to your operating system manual or the online Help function.
- The explanations of screens and procedures in this manual are for Windows Vista. The screens may vary depending on your Windows version and settings.
- While every effort has been made to make this operation manual as accurate and helpful as possible, SHARP Corporation makes no warranty of any kind with regard to its content. All information included herein is subject to change without notice. SHARP is not responsible for any loss or damages, direct or indirect, arising from or related to the use of this operation manual.

REMOVING THE SOFTWARE

Windows

1. Click the [Start] button and then click [Control Panel].
2. Click [Uninstall a program].
3. Select the program or driver that you wish to delete.
   For more information, see the manual for the operating system or Help.
4. Restart your computer.

Mac OS X

1. Insert the "Software CD-ROM" into your CD-ROM drive.
2. Click the [CD-ROM] icon ( ) on the desktop and double-click the [MacOS] folder.
3. Double-click the [Installer] icon ( ).
4. Select [Remove] in the Install menu and click the [Remove] button.

Mac OS 9.0 - 9.2.2

1. Insert the Software CD-ROM that shows "Disc 2" on the front of the CD-ROM.
2. Double-click the [CD-ROM] icon ( ) on the desktop and double-click the [MacOS] folder.
3. Double-click the [Installer] icon ( ).
4. Select [Remove] in the Install menu and click the [Remove] button.

Mac OS 9.0 - 9.2.2

1. Insert the "Software CD-ROM" into your CD-ROM drive.
2. Double-click the [CD-ROM] icon ( ) on the desktop and double-click the [MacOS] folder.
3. Double-click the [Installer] icon ( ).
4. Select [Remove] in the Install menu and click the [Remove] button.

Mac OS X

1. Delete the PPD file from the desktop. Follow the steps below.
2. Delete the PPD file from the following folder on the startup disk:
   Delete the PPD file of the machine from this folder.
3. Delete the installation information.
   The installation information file has been copied to the following folder on the startup disk:
   [Library] - [Receipts]
   Delete the [MX-PBX1.pkg] file from this folder.

System or Help:

For more information, see the manual for the operating system or Help.

Select the program or driver that you wish to delete.

[Add/Remove Programs] icon:
- In Windows 98/Me/NT 4.0/2000, double-click the [Start] button, point to [Settings], and click [Control Panel].
- In Windows XP/Server 2003, click the [Start] button, point to [Settings], and click [Control Panel].
- In Windows 98/Me/NT 4.0/2000, click the [Start] button, then click [Control Panel].
- In Windows XP/Server 2003, double-click the [Start] button, point to [Settings], and click [Control Panel].
- In Windows_me/NT 4.0/2000, click the [Start] button, then click [Control Panel].
WHEN INSTALLATION WAS NOT SUCCESSFUL

X

The printer driver cannot be installed (Windows 2000/XP/Server 2003)

If the printer driver cannot be installed on Windows 2000/XP/Server 2003, follow the steps below to check your computer settings.

1. Click the [start] button and then click [Control Panel].
   In Windows 2000, click the [Start] button, point to [Settings], and click [Control Panel].

2. Click [Performance and Maintenance] and then [System].
   In Windows 2000, double-click the [System] icon.

3. Click the [Hardware] tab and then the [Driver Signing] button.
   Check the settings in "What action do you want Windows to take?" ("File signature verification" in Windows 2000).
   If [Block] is selected, the printer driver cannot be installed.
   Select [Warn] and install the printer driver again.

4. [Signature verification] in Windows 2000):
   You want Windows to take?"
   Check the settings in "What action do you want Windows to take?"

The printer driver is not installed correctly by plug and play (USB connection in Windows).

Did you connect the machine to your computer before installing the printer driver?

In Windows 2000/XP/Server 2003, if the machine was connected to your computer with a USB cable before the printer driver was installed from the installer, check if information on the unsuccessful installation remains in "Device Manager". (For information on "Device Manager", see Help in Windows.)

If the model name of the machine appears in "Other devices" in "Device Manager", delete it and restart your computer. If the printer driver is not installed correctly by plug and play (USB connection in Windows), do not install it again.

Problem

- Connection in Windows
- Did you connect the machine to your computer before installing the printer driver?
- The printer driver is not installed correctly by plug and play (USB connection in Windows).

Solution

- Check if information on the unsuccessful installation remains in "Device Manager".
- Delete the model name of the machine from "Other devices" in "Device Manager".
- Restart your computer.

Point to check

- Connection in Windows.
- Did you connect the machine to your computer before installing the printer driver?

</table>
### Troubleshooting

**Problem**

- The software cannot be installed.
- The machine is not detected (when connected to a network).
- The plug and play screen does not appear (USB connection in Windows).
- The printer driver is not installed correctly by plug and play (when connected to a network).
- The machine is not detected (when connected to a network).

**Solution**

1. **Is there sufficient free space on your hard drive?**
   - Delete any unneeded files and applications to increase free space on your hard drive.

2. **Is the IP address of the machine configured?**
   - If the IP address of the machine is not configured, the machine will not be detected. Make sure that the IP address is configured correctly in the machine's system settings (administrator).

3. **Are you using an operating system that is not supported?**
   - Make sure that the software can run on your operating system.

4. **Is the software not installed?**
   - The software cannot be installed.

</tbody>
</table>
10 Select the PPD file.

11 Make sure that the machine is selected in the "Select a PostScript Printer" list and then click the [Setup] button.

12 Click the [Configure] button.

13 Select the machine configuration.

1. Select the options that are installed on the machine.
2. Select [Options 2] from the menu to change the screen and continue selecting the options that have been installed on the machine.
3. Click the [OK] button.

14 Click the [OK] button in the window of step 12 to close the window.

15 Close the close box ( ) to close the Chooser.

16 This completes the configuration of the printer driver.

Installing the screen fonts

The screen fonts for Mac OS 9.0 - 9.2.2 are contained in the [Font] folder of the "PRINTER UTILITIES" CD-ROM that accompanies the PS3 expansion kit. Copy the fonts you wish to install to the [System Folder] of the startup disk. Open the "PRINTER UTILITIES" CD-ROM and copy the fonts to the [System Folder] of the startup disk. Open the "PRINTER UTILITIES" CD-ROM and copy the fonts to the [System Folder] of the startup disk. Open the "PRINTER UTILITIES" CD-ROM and copy the fonts to the [System Folder] of the startup disk.

If the above dialog box does not appear and you return to the "Chooser" dialog box, follow these steps to select the PPD file manually.

1. Make sure that the machine is selected in the "Select a PostScript Printer" list, and then click the [Setup] button followed by the [Select PPD] button.
2. Select the PPD file for your model and click the [Open] button.
3. Click the [OK] button.

The PPD file is installed in the [Printer Descriptions] folder in the [Extensions] folder.

To automatically configure the settings based on the installed machine options that are detected, click the [Auto Setup] button.

You can check the options that are installed on the machine by printing out the "All Custom Setting List" in the system settings. Follow these steps to print out the "All Custom Setting List": Press the [SYSTEM SETTINGS] key, touch the [List Print (User)] key, and then touch the [Print] key of "All Custom Setting List". You can check the options that are installed on the machine.

If you experience problems that may be due to the installed screen fonts, immediately delete the installed fonts from the system.

MAC OS 9.0 - 9.2.2
1. Insert the “Software CD-ROM” into your computer’s CD-ROM drive.

2. Insert the “Software CD-ROM” that shows “Disc 2” on the front of the CD-ROM.

3. Double-click the [CD-ROM] icon ( ) on the desktop.

Before installing the software, be sure to read “ReadMe First”. “ReadMe First” is in the [English] folder in the [Readme] folder.

5. Double-click the [Installer] icon ( ).

6. Click the [Install] button.

7. The License Agreement window will appear. Make sure that you understand the contents of the license agreement and then click the [Yes] button.

8. Read the message in the window that appears and click the [Continue] button.

Installation of the PPD file begins. After the installation, a message prompting you to restart your computer will appear. Click the [OK] button and restart your computer.

This completes the installation of the software. Next, configure the printer driver settings.

8. Select [Chooser] from the Apple Menu.

9. Create a printer.

(1) Click the [LaserWriter 8] icon. If multiple AppleTalk zones are displayed, select the zone that includes the printer.

(2) Click the machine’s model name. The machine’s model name usually appears as [SCxxxxxx]. (“xxxxxx” is a sequence of characters that varies depending on your model.)

(3) Click the [Create] button.

If you are using Mac OS 9.0 to 9.2.2, make sure that “LaserWriter 8” has been installed and that the “LaserWriter 8” checkbox is selected in “Extensions Manager” in “Control Panels”. If not, install it from the system CD-ROM supplied with your Macintosh computer.
Print using the IPP function

The machine can print using the IPP function. When the machine is in a remote location, this function can be used in place of the fax function to print a higher quality image than a fax. If you wish to use the IPP function, follow these steps to select the PPD file when configuring the printer driver (step 14 on page 33).

1. Click the [IP Printer] icon.
   If you are using Mac OS X v10.5 to 10.5.1, click the [IP] icon.
2. Select [Internet Printing Protocol] in "Protocol". Enter the address of the machine (IP address or domain name) and the queue name. Enter "ipp" in "Queue".
3. Select [Sharp] in "Print Using" and click the PPD file of your model.
   If you are using Mac OS X v 10.5 to 10.5.1, select [Select a driver to use] from "Print Using" and click the PPD file for your model.
4. Click the [Add] button.
   If you are using Mac OS X v 10.5 to 10.5.1, the "Installable Options" screen will appear. Make sure the settings are correct and click [Continue].

Checking the IP address of the machine (page 7)

1. Select [IP Printing].
2. Select [Internet Printing Protocol] in "Printer Type". Enter the address of the machine (IP address or domain name) in "Printer's Address".
3. Enter "ipp" in "Queue Name".
4. Select [Sharp] in "Printer Model" and click the PPD file of your model.
5. Click the [Add] button.
This completes the configuration of the printer.

16 Select the machine configuration. If you selected [Auto Select] in step 14, the machine configuration is detected and automatically configured. If you selected [Auto Select], select in step 14. The

You can check the options that are installed on the machine. You can check the options that are installed on the machine. You can check the options that are installed on the machine.

(1) Select [Installable Options]. If you are using Mac OS X v10.5 to 10.5.1, it does not appear.

(2) Select the options that are installed on the machine.

(3) Click the [Apply Changes] button.

(4) Click to close the window.

15 Display printer information. If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

(1) Click the machine’s name.

(2) Click [Show Info].

If you are using Mac OS X v10.5 to 10.5.1, click the [Options & Supplies] button, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Options & Supplies] button, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Options & Supplies] button, click the [Driver] tab and go to step 16.

(1) Click the machine’s name.

(2) Click [Show Info].

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.

If you are using Mac OS X v10.5 to 10.5.1, click the [Driver] tab and go to step 16.
Configure the printer driver.

The PPD file is installed in the following folders on the startup disk.

The machine is detected and automatically configured. The peripheral devices installed on the machine are detected and automatically configured.

1. Select [AppleTalk].
   - If multiple AppleTalk zones are displayed, select the zone that includes the printer from the menu.
   - If you are using Mac OS X 10.2.8, select [Sharp].
   - If you are using Mac OS X 10.3.9, select [AppleTalk].

2. Click the machine's model name.
   - The machine's model name usually appears as [SCxxxxxx]. ("xxxxxx" is a sequence of characters that varies depending on your model.)

3. Select the PPD file of the machine.
   - If you are using Mac OS X 10.3.9, select [Auto Select].
   - If you are using Mac OS X 10.2.8, select [Sharp].
   - If you are using Mac OS X 10.0.4 to 10.5.1, click the PPD file of your model.
   - If multiple model names are displayed, select the model name of your machine.

4. Click the [Add] button.
   - The PPD file of the machine is automatically selected and the peripheral devices installed on the machine are detected and automatically configured.

The PPD file is installed in the following folders on the startup disk.

This completes the installation of the software. Next, configure the printer driver settings.

11 Select [Utilities] from the [Go] menu. If you are using Mac OS X v10.2.8, select [Applications] from the [Go] menu. (Windows) If you are using Mac OS X v10.4, select [Preferences] in the Apple menu ( ) and [System Preferences].

If you are using Mac OS X v10.4, double-click the [Printer Setup Utility] icon ( ). If you are using Mac OS X v10.2.8, double-click the [Utilities] folder and then double-click the [Print Center] icon ( ).

12 Click the [Add] button. If the license appears in the different language, change the language in the language menu. If the "Authenticate" window appears, enter the password and click the [OK] button.

If this is the first time you are installing a printer driver on your computer, a confirmation message will appear. Click the [Add] button.

Installation begins. Be sure to select the hard drive on which your operating system is installed.

8 Select the hard drive where the PPD file will be installed and click the [Continue] button.

9 Click the [Install] button. Installation begins.

10 When the message "The software was successfully installed" appears in the installation window, click the [Close] button. This completes the installation of the software. Next, configure the printer driver settings.
This chapter explains how to install the PPD file to enable printing from a Macintosh and how to configure the printer driver settings.

**MAC OS X**: this page (v10.2.8, v10.3.9, v10.4.11, v10.5 - 10.5.1)

**MAC OS 9.0 - 9.2.2**: page 36

---

1. Insert the "Software CD-ROM" into your computer's CD-ROM drive.
2. Insert the "Software CD-ROM" that shows "Disc 2" on the front of the CD-ROM.
3. Double-click the [CD-ROM] icon ( ) on the desktop.
5. Double-click the folder corresponding to the versions of the operating system.
7. Click the [Continue] button.
8. Enter the password and click the [OK] button.

---

**SETUP IN A MACINTOSH ENVIRONMENT**

The PS3 expansion kit is required to use the machine as a printer in a Macintosh environment. In addition, the machine must be connected to a network. A USB connection cannot be used.

The scanner driver and PC-Fax driver cannot be used in a Macintosh environment.

The explanations of screens and procedures are primarily for Mac OS X v10.4. The screens may vary in other versions of the operating system.
When using a port created with "Standard TCP/IP Port"

4. Select [SC2 TCP/IP Port] and then click the [New Port] button. In Windows 98/Me, select [Other], [SC2 TCP/IP Port], and then click the [OK] button.

5. Create the new port.
   (1) Enter the machine’s IP address.
   ☞ Checking the IP address of the machine (page 7)
   (2) Make sure that [LPR] is selected.
   (3) Make sure that [lp] is entered.
   (4) Click the [OK] button.

6. Click the [Close] button in the screen of step 4.
   In Windows 98/Me, this step is not required. Go to the next step.

7. Make sure the created printer port is selected in the printer properties window and then click the [Apply] button.

When using a port created with "Standard TCP/IP Port"

- When using a port created with "Standard TCP/IP Port" in Windows 2000/XP/Server 2003/Vista, in the screen that appears after you click the [Configure Port] button in the screen of step 3, make sure the [SNMP Status Enabled] checkbox is not selected ( ). If the [SNMP Status Enabled] checkbox is selected ( ), it may not be possible to print correctly.

- The "SC2 TCP/IP Port" is added when the printer driver is installed using a "Standard installation", or a "Custom installation" with "LPR Direct Print (Specify Address/Auto Search)" selected.
- If the printer driver is installed using "Custom installation" with "IPP" selected, the [SC-Print2005 Port] is added.
- If you need to change the printer port when the machine is connected to an intranet or a wide area network (WAN) using the IPP function, select [SC-Print2005 Port], click the [New Port] button (the [OK] button in Windows 98/Me), and follow the on-screen instructions to create the port again.
- If the printer driver is installed using a "Custom installation" or "Standard installation", or if the port is not selected when the machine is connected to a network using "LPR Direct Print", select [SC-Print2005 Port] and then click the [New Port] button (the [OK] button in Windows 98/Me), and follow the on-screen instructions to create the port again.
- The [SC2 TCP/IP Port] is added when the printer driver is installed using a "Custom installation".
CHANGING THE PORT

When using the machine in a Windows environment, follow the steps below to change the port when you have changed the IP address of the machine or have installed the PC-Fax driver when the machine is connected with a USB cable.

1. Click the [Start] button ( ), click [Control Panel], and then click [Printer].
   In Windows XP/Server 2003, click the [start] button and then click [Printers and Faxes].
   In Windows 98/Me/NT 4.0/2000, click the [Start] button, select [Settings], and then click [Printers].

2. Open the printer properties window.
   (1) Right-click the printer driver icon of the machine.
   (2) Select [Properties].

3. Adding or changing a port.
   (1) Click the [Ports] tab.
   In Windows 98/Me, click the [Details] tab.
   (2) Click the [Add Port] button.

To change to a previously created port such as USB port, select the desired port (USB001, etc.) from the list and click the [Apply] button. This changes the port.
INSTALLING THE PS DISPLAY FONTS

Fonts that can be used by the PS printer driver are contained on the “PRINTER UTILITIES” CD-ROM that accompanies the PS3 expansion kit. Install these fonts as needed for the PS printer driver.

1. Insert the “PRINTER UTILITIES” CD-ROM that accompanies the PS3 expansion kit into your computer’s CD-ROM drive.

2. Click the [Start] button ( ), click [Computer], and then double-click the [CD-ROM] icon ( ).
   - In Windows XP/Server 2003, click the [start] button, click [My Computer], and then double-click the [CD-ROM] icon.
   - In Windows 98/Me/NT 4.0/2000, double-click [My Computer], and then double-click the [CD-ROM] icon.

3. Double-click the [Setup] icon ( ).

4. The “SOFTWARE LICENSE” window will appear. Make sure that you understand the contents of the license agreement. Click the [Yes] button.

5. Read the message in the “Welcome” window and then click the [Next] button.

6. Click the [PS Display Font] button.

7. Follow the on-screen instructions.

8. Click the [Close] button in the screen of step 6.

In Windows Vista, if a message screen appears asking you for confirmation, click [Allow].

You can show the “SOFTWARE LICENSE” in a different language by selecting the desired language from the language menu. To install the software in the selected language, continue the installation with that language selected.
This completes the configuration of the scanner driver.

Select the IP address of the machine from the "Address" menu and click the [OK] button. Be sure to ask your system administrator (network administrator) for the IP address of the machine. The name (host name) or IP address of the machine can be directly entered in "Address". The name (host name) or IP address of the machine administrator (network administrator) is the default address of the machine.

8 Click the [OK] button.

Select the IP address of the machine from the "Address" menu and click the [OK] button.
INSTALLING THE SCANNER DRIVER

The scanner driver (TWAIN driver) can only be used when the machine is connected to a network. When the scanner driver is installed, PC scan mode of the image send function can be used.

Supported operating systems: Windows 98/Me/2000*/XP*/Server 2003*/Vista*

* Administrator's rights are required to install the software.

After performing step 1 through step 5 of "OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)" (page 8), continue the steps below.

1. Click the [Scanner Driver (TWAIN)] button.
2. Follow the on-screen instructions.
3. When the finish setup window appears, click the [OK] button.
4. Click the [Close] button in the window that appears and click the [OK] button.
5. Click the [Start] button, select [All Programs] ([Programs] in Windows 98/Me/2000), select [SHARP MFP 98/W/M2000), select [SHARP MFP TWAIN K], and then select [Select Device].
6. Click the [search] button, select [All Device].

If you know the IP address, you can click the [input] key and enter the IP address without searching.

This completes the installation. Next, configure the IP address of the machine in the scanner driver.

When the scanner driver is installed, the "Select Device" utility is also installed. The IP address of the machine is configured in the scanner driver using "Select Device".

After the installation, a message prompting you to restart your computer may appear. If this message appears, click the [Yes] button to restart your computer.
INSTALLING THE PRINTER STATUS MONITOR

Printer Status Monitor is a printer utility that allows general users to check the current status of the machine on their computer screen, such as whether or not the machine is ready to print. The Printer Status Monitor shows error information such as paper misfeeds, printer configuration information (whether or not a finisher is installed, etc.), the paper sizes that can be used, and the amount of paper remaining.

Supported operating systems: Windows 98/Me/NT 4.0/2000*/XP*/Server 2003*/Vista*

Administrator rights are required to install the software.

When the software selection screen appears in step 6 of “OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)” (page 8), perform the steps below.

1. Click the [Printer Status Monitor] button.
2. Follow the on-screen instructions.
3. When the installation completed screen appears, click the [Finish] button.
4. To have the Printer Status Monitor start automatically when your computer is started, select the [Add this program to your Startup folder] checkbox and click the [Finish] button.
5. Click the [Close] button in the window.

This completes the installation.

For the procedures for using the Printer Status Monitor, see the Help file. Follow these steps to view the Help file:

- Click the Windows [start] button, select [All Programs] ([Programs] in Windows 98/Me/NT 4.0/2000), select [SHARP Printer Status Monitor], and then select [Help].

The Printer Status Monitor cannot be used in the following situations:
- When the machine is connected by a USB cable.
- When printing to the machine using the IPP function.
- After the installation, a message prompting you to restart your computer may appear. If this message appears, click the [Yes] button to restart your computer.

When printing to the machine using the IPP function, the Printer Status Monitor shows error information such as paper misfeeds, printer configuration information (whether or not a finisher is installed, etc.), the paper sizes that can be used, and the amount of paper remaining. The Printer Status Monitor shows error information such as paper misfeeds, printer configuration information (whether or not a finisher is installed, etc.), the paper sizes that can be used, and the amount of paper remaining.

The Printer Status Monitor is a printer utility that allows general users to check the current status of the machine on their computer.
INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER

When the PPD driver is installed

1. Click the [Start] button ( ), click [Control Panel], and then click [Printer].
   In Windows XP/Server 2003, click the [start] button and then click [Printers and Faxes].
   In Windows 98/Me/NT 4.0/2000, click the [Start] button, select [Settings], and then click [Printers].

2. Open the printer properties window.
   (1) Right-click the printer driver icon on the machine.
   (2) Select [Properties].
   (3) Click the [OK] button.

3. Configure the printer driver for the options installed on the machine.
   (1) Click the [Device Settings] tab.
   In Windows 98/Me, click the [Device Options] tab.
   (2) Configure each item based on the machine configuration.
   The items and the procedures for configuring the machine vary depending on the operating system version.
   (3) Click the [OK] button.

If [Printers and Faxes] does not appear in the [start] menu in Windows XP, click the [start] button, click [Control Panel], click [Printers and Other Hardware], and then click [Printers and Faxes].

You can check the options that are installed on the machine by printing out the “All Custom Setting List” in the system settings. Follow these steps to print out the “All Custom Setting List”: Press the [SYSTEM SETTINGS] key, touch the [List Print (User)] key, and then touch the [Print] key of “All Custom Setting List”.

When the PPD driver is installed
5 Configure the image of the machine.

An image of the machine is formed in the printer driver configuration window based on the options that are installed.

(1) Select the options that are installed on the machine.

(2) Configure the image of the machine.

6 Click the [OK] button in the printer properties window.

To cancel the image settings, click the [Cancel] button.

If automatic configuration fails, configure the settings manually.

If manual configuration fails, configure the settings manually.

(1) Click the [Set Tray Status] button, the [Paper Type Name] button, and the [Set Tandem Print] button to check the settings of each.

(2) Set Tray Status: The "Tray Settings" in "Paper Tray Settings" of system settings of the machine are reflected in the settings shown here. Specify the size and type of paper loaded in each tray.

(3) Paper Type Name: The "Paper Type Registration" settings in "Paper Tray Settings" of system settings of the machine are reflected in the settings shown here. If a user type name (1 to 7) was changed, enter the changed name.

(4) Set Tandem Print*: Enter the setting (the IP address of the slave machine) in "Tandem Connection Setting" of the machine.

* "Set Tandem Print" can only be configured when the printer driver is installed using a "Standard installation" or a "Custom installation" with "LPR Direct Print (Specify Address/Auto Search)" selected.
INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER

CONFIGURING THE PRINTER DRIVER FOR THE OPTIONS INSTALLED ON THE MACHINE

After installing the printer driver, you must configure the printer driver settings appropriately for the options that have been installed and the size and type of paper loaded in the machine. Follow the steps below to configure the printer driver.

1. Click the [Start] button ( ), click [Control Panel], and then click [Printer].
   - In Windows XP/Server 2003, click the [Start] button and then click [Printers and Faxes].
   - In Windows 98/Me/NT 4.0/2000, click the [Start] button, select [Settings], and then click [Printers].

2. Open the printer properties window.
   - If [Printers and Faxes] does not appear in the [Start] menu in Windows XP, click the [Start] button, click [Control Panel], click [Printers and Other Hardware], select [Settings], and then click [Printers].
   - Right-click the printer driver icon of the machine.

3. Click the [Configuration] tab.
   - In Windows 98Me, click the [Setup] tab and then click the [Configuration] tab in the window that appears.
   - In Windows 98/Me, click the [Setup] tab and then click the [Configuration] tab in the window that appears.

4. Click the [Auto Configuration] button.
   - The settings are automatically configured based on the detected machine status.

When the PCL printer driver or PS printer driver is installed

If the PPD driver is installed, see “When the PPD driver is installed” (page 24).
INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER USING THE STANDARD WINDOWS PS PRINTER DRIVER (Windows 98/Me/NT 4.0)

If the PS3 expansion kit is installed on the machine and you wish to use the standard Windows 98/Me/NT 4.0 PS printer driver, follow the steps below to install the PPD driver using the Add Printer Wizard.

1. Download the software and save the extracted files in any folder.
2. Click the [Start] button, select [Settings] and then click [Printers].
4. Follow the on-screen instructions. When you are asked to specify the path of the PPD file, enter the path as follows.

   - Windows 98/Me: (Folder containing extracted files)\English\PPD\9XME
   - Windows NT 4.0: (Folder containing extracted files)\English\PPD\NT4.0

After installation, see "CONFIGURING THE PRINTER DRIVER FOR THE OPTIONS INSTALLED ON THE MACHINE" (page 22) to configure the printer driver settings.

Installing the resident font information (Windows 98/Me)

If you have installed the PPD driver on Windows 98/Me and will be using the resident fonts in the machine, you must install the resident font information. Follow the procedure below to install the resident font information.

1. Double-click the folder where the extracted files are saved when you installed the PPD driver.
2. Double-click the [English] folder, the [PPD] folder, the [9XME] folder, and then [PFMSetup.exe].
3. Follow the on-screen instructions.
4. After the resident font information has been installed, restart your computer.

The CD-ROM does not include software for Windows 98/Me/NT 4.0. Contact your dealer or nearest authorised service representative if you want software for Windows 98/Me/NT 4.0.

If you are using Windows 2000/XP/Server 2003/Vista, you can install the PPD driver from the installer.

Be sure to view the Readme file (Readme.txt) before installing the PPD driver. If you are using Windows 2000/XP/Server 2003/Vista, you can install the PPD driver from the installer.

Contact your dealer or nearest authorised service representative if you want software for Windows 98/Me/NT 4.0.

The CD-ROM does not include software for Windows 98/Me/NT 4.0.

After you have installed the PPD driver on Windows 98/Me and will be using the resident fonts in the machine, you must install the resident font information.

Follow the on-screen instructions. The "Add Printer Wizard" will appear.

1. Double-click the [Add printer] icon.
2. Click the [Settings] and then click [Printers].
3. Double-click the [English] folder and then click [PPD].
4. Follow the on-screen instructions.

Download the software and save it in any folder.
INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER

USING THE MACHINE AS A SHARED PRINTER

If you are going to use the machine as a shared printer on a Windows network with the printer driver or the PC-Fax driver installed on a print server, follow the steps below to install the printer driver or the PPD driver on the client computers.

When the software selection screen appears in step 6 of “OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)” (page 8), perform the steps below.

1. Click the [Printer Driver] button.

2. Click the [Custom installation] button.

3. Select [Shared Printer] and click the [Next] button.

4. Select the printer name (configured as a shared printer on a print server) from the list.

5. Perform steps 5 through 13 to continue the installation.

When the printer driver selection screen appears, be sure to select the same type of printer driver as the printer driver installed on the print server.

This completes the installation.

If you installed the PS printer driver or the PPD driver, the PS display fonts can be installed from the “PRINTER UTILITIES” CD-ROM that accompanies the PS3 expansion kit. See “INSTALLING THE PS DISPLAY FONTS” (page 28).

Ask your network administrator for the server name and printer name of the machine on the network.

For the procedure for configuring settings on the print server, see the operation manual of the machine on the network.

If you are going to use the machine as a shared printer on a Windows network with the printer driver or the PPD driver installed on the print server, follow the steps below to install the printer driver or the PPD driver on the client computers.

To install the PC-Fax driver, click the [PC-Fax Driver] button on the “Disc 2” CD-ROM. The above screen appears when using the button on the “Disc 2” CD-ROM.

To install the PPD driver, click the [PC-Fax Driver] button on the “Disc 1” CD-ROM.

If the shared printer does not appear in the list, check the settings on the print server.

Install the same printer driver on client computers as the printer driver that is installed on the print server.

If the PPD driver is installed on the print server and the client computers are running Windows 98/Me/NT 4.0, see “USING THE STANDARD WINDOWS PS PRINTER DRIVER (Windows 98/Me/NT 4.0)” (page 21) to install the printer driver using the Add Printer Wizard.

The standard Windows PS printer driver (Windows 98/Me/NT 4.0) is installed on the print server and the client computers are running Windows 98/Me/NT 4.0. See “USING THE STANDARD WINDOWS PS PRINTER DRIVER (Windows 98/Me/NT 4.0)” (page 21) to install the printer driver using the Add Printer Wizard.

Install the same printer driver on client computers as the printer driver that is installed on the print server.

If you are going to use the machine as a shared printer on a Windows network with the printer driver or the PPD driver installed on the print server, follow the steps below to install the printer driver or the PPD driver on the client computers.
6 Select whether or not you wish the printer to be your default printer and click the [Next] button. If you are installing multiple drivers, select the printer driver to be used as the default printer. If you do not wish to set one of the printer drivers as the default printer, select [No].

7 When the printer name window appears, click the [Next] button. If you wish to change the printer name, enter the desired name.

8 When you are asked if you wish to install the display fonts, select [No] and click the [Next] button. When the PC-Fax driver is being installed, this screen does not appear. Go to the next step.

9 Follow the on-screen instructions. Read the message in the window that appears and click the [Next] button. Installation begins.

10 When the installation completed screen appears, click the [OK] button. After installation, see "CONFIGURING THE PRINTER DRIVER FOR THE OPTIONS INSTALLED ON THE MACHINE" (page 22) to configure the printer driver settings. Make sure that the port of the installed driver is the same as the port used by the PCL6 printer driver. The port used by the printer driver of the machine is indicated by a checkmark on the [Ports] tab of the printer driver properties window. (In Windows 98/Me, this is the port selected in [Print to the following port] on the [Details] tab.)

☞ CHANGING THE PORT (page 29)

11 Click the [Close] button in the window of step 1. This completes the installation.

If you installed the PS printer driver or the PPD driver, the PS display fonts can be installed from the "PRINTER UTILITIES" CD-ROM that accompanies the PS3 expansion kit. See "INSTALLING THE PS DISPLAY FONTS" (page 28).
When installing the PCL5c printer driver, PS printer driver, PPD driver, or PC-Fax driver, installation is possible even after the USB cable has been connected. When the software selection screen appears in step 6 of "OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)" (page 8), perform the steps below.

1. Click the [Printer Driver] button.
2. Click the [Custom installation] button.
3. When the printer driver selection window appears, remove the [PCL6] checkbox and select the printer driver to be installed, and then click the [Next] button.
4. When the port selection window appears, select the port that the PCL6 printer driver is using (USB001, etc.) and click the [Next] button.
5. When the printer driver selection screen appears, click the [Custom installation] button.
6. To install the PC-Fax driver, click the [PC-Fax Driver] button.

Note: The above screen appears when using the "Disc 1" CD-ROM. The "Disc 2" CD-ROM is required to use the PS3 expansion kit.
INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER

6 Click the [Close] button in the window of step 1.
When a message appears prompting you to connect the machine to your computer, click the [OK] button.

7 Connect the machine to your computer with a USB cable.
(1) Make sure that the machine is powered on.
(2) Connect the cable to the USB connector (B type) on the machine.
The USB interface on the machine complies with the USB 2.0 (Hi-Speed) standard. Please purchase a shielded USB cable.
(3) Connect the other end of the cable to the USB connector (A type) on your computer.
The machine is found and a Plug and Play window appears.

8 Installation of the PCL6 printer driver begins.
When the “Found New Hardware Wizard” appears, select [Install the software automatically (Recommended)], click the [Next] button, and follow the on-screen instructions. This completes the installation.

9 After installing the printer driver, see “CONFIGURING THE PRINTER DRIVER FOR THE OPTIONS INSTALLED ON THE MACHINE” (page 22) to configure the printer driver settings.

If you are using the machine as a shared printer, see “USING THE MACHINE AS A SHARED PRINTER” (page 20) to install the printer driver on each of the client computers.

After the installation, a message prompting you to restart your computer may appear. If this message appears, be sure to click the [Yes] button to restart your computer.

If you are using Windows Vista
If a security warning window appears, be sure to click [Install this driver software anyway].
If you are using Windows 2000/XP/Server 2003
If a warning message regarding the Windows logo test or digital signature appears, be sure to click the [Continue Anyway] or [Yes] button.

If you are using Windows Vista
If a warning message regarding the Windows logo test or digital signature appears, be sure to click the [Continue Anyway] or [Yes] button.
Supported operating systems: Windows 98/Me/2000*/XP*/Server 2003*/Vista*
*Administrator’s rights are required to install the software.

When the software selection screen appears in step 6 of “OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)” (page 8), perform the steps below.

1. Click the [Printer Driver] button.
2. Click the [Custom installation] button.
3. When you are asked how the printer is connected, select [Connected to this computer] and click the [Next] button.
4. When you are asked if you wish to install the display fonts, select an answer and click the [Next] button.
5. Follow the on-screen instructions.

When you are asked if you wish to install the display fonts, select [Connected to this computer] and click the [Next] button.

Follow the on-screen instructions.

USB CABLE

INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER WHEN THE MACHINE WILL BE CONNECTED WITH A USB CABLE

Make sure that a USB cable is not connected to your computer and the machine.

If a cable is connected, a plug and play window will appear. If this happens, click the [Cancel] button to close the window.

The PS3 expansion kit is required to use the PS printer driver or the PPD driver.

To install the PPD driver when Windows 98/Me is used, see “USING THE STANDARD WINDOWS PS PRINTER DRIVER (Windows 98/Me/NT 4.0)” (page 21) and install the driver using the Add Printer Wizard.

To use the port created when the printer driver is installed for fax data transfer, install the printer driver first and then install the PC-Fax driver.

If you are using Windows Vista
If a security warning window appears, be sure to click the [Continue Anyway] or [Yes] button.

If you are using Windows 2000/XP/Server 2003
If a warning message regarding the Windows logo test or digital signature appears, do not to click the [Continue Anyway] or [Yes] button.

When the software selection screen appears in step 6 of “OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)” (page 8), perform the steps below.

1. Click the [Printer Driver] button.
2. Click the [Custom installation] button.
3. When you are asked how the printer is connected, select [Connected to this computer] and click the [Next] button.
4. When you are asked if you wish to install the display fonts, select an answer and click the [Next] button.
5. Follow the on-screen instructions.

When the software selection screen appears in step 6 of “OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)” (page 8), perform the steps below.

1. Click the [Printer Driver] button.
2. Click the [Custom installation] button.
3. When you are asked how the printer is connected, select [Connected to this computer] and click the [Next] button.
4. When you are asked if you wish to install the display fonts, select an answer and click the [Next] button.
5. Follow the on-screen instructions.

When the software selection screen appears in step 6 of “OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)” (page 8), perform the steps below.

1. Click the [Printer Driver] button.
2. Click the [Custom installation] button.
3. When you are asked how the printer is connected, select [Connected to this computer] and click the [Next] button.
4. When you are asked if you wish to install the display fonts, select an answer and click the [Next] button.
5. Follow the on-screen instructions.

When the software selection screen appears in step 6 of “OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)” (page 8), perform the steps below.

1. Click the [Printer Driver] button.
2. Click the [Custom installation] button.
3. When you are asked how the printer is connected, select [Connected to this computer] and click the [Next] button.
4. When you are asked if you wish to install the display fonts, select an answer and click the [Next] button.
5. Follow the on-screen instructions.
15

INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER

5 Enter the machine's URL and click the [Next] button.
Enter the URL in the following format:

Normal format:
http://<the machine's domain name or IP address>:631/ipp

*1 Normally "631" should be entered for the port number.

If the IPP port number has been changed on the machine, enter the new port number.

When SSL is used:
https://<the machine's domain name or IP address>:<port number>/ipp

*2 Normally the port number and the colon "::" is omitted.

If SSL is enabled, enter the URL in the following format:

Enter the machine's URL and click the [Next] button.

This completes the installation.

To continue the installation, perform steps 5 through 12 on page 13.
INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER

Printing using the IPP function and the SSL function

The IPP function can be used to print to the machine over a network using HTTP protocol. When the machine is in a remote location, this function can be used in place of the fax function to print a higher quality image than a fax. The IPP function can also be used in combination with the SSL (encrypted communication) function to encrypt the print data. The printer sends encrypted data to the machine. The function can be used in place of the fax function to print a higher quality image than a fax. The IPP function can be used in combination with the SSL (encrypted communication) function to encrypt the print data. This function can be used in place of the fax function to print a higher quality image than a fax.

When the software selection screen appears in step 6 of “OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)” (page 8), perform the steps below.

1 Click the [Printer Driver] button.

   To install the PC-Fax driver, click the [PC-Fax Driver] button on the “Disc 2” CD-ROM.

   * The above screen appears when using the “Disc 1” CD-ROM.

2 Click the [Custom installation] button.

3 When you are asked how the printer is connected, select [IPP] and click the [Next] button.

4 If a proxy server is used, specify the [Next] button.

   When you are asked how the printer is connected, select [IPP] and click the [Next] button.

   To use the SSL function, configure the “SSL Settings” in the system settings (administrator) of the machine. To configure the settings, see “7. SYSTEM SETTINGS” in the Operation Guide.
INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER

5 When the model selection window appears, select the model name of your machine and click the [Next] button.

6 When the printer selection window appears, select the printer driver to be installed and click the [Next] button.

Click the checkbox of the printer driver to be installed so that a checkmark (✓) appears.

If you are installing multiple drivers, select the printer driver to be used as the default printer.

7 Select whether or not you wish to set one of the printer drivers as the default printer. If you do not wish to set one of the printer drivers as the default printer, select [No].

8 When the printer name window appears, click the [Next] button. If you wish to change the printer name, enter the desired name.

If you are installing multiple drivers, select the printer to be your default printer.

9 When you are asked if you wish to install the display fonts, select an answer and click the [Next] button.

If you wish to install the display fonts, select an answer and click the [Next] button.

When the PS printer driver is being installed, this screen does not appear. Go to the next step.

If you are not installing the PCL printer driver (you are installing the PS printer driver or the PPD driver), select [No] and click the [Next] button.

10 Follow the on-screen instructions.

Follow the on-screen instructions.

11 When the installation completed screen appears, click the [OK] button.

When the installation completed screen appears, click the [OK] button.

12 Click the [Close] button in the window of step 1.

This completes the installation.

After installation, see “CONFIGURING THE PRINTER DRIVER FOR THE OPTIONS INSTALLED ON THE MACHINE” (page 22) to configure the printer driver settings.

If you installed the PS printer driver or the PPD driver, the PS display fonts can be installed from the “PRINTER UTILITIES” CD-ROM that accompanies the PS3 expansion kit. See “INSTALLING THE PS DISPLAY FONTS” (page 28).

When the PC-Fax driver is being installed, this screen does not appear. Go to the next step.

The PS3 expansion kit is required to use the PS printer driver or the PPD driver.

The [PPD] checkbox only appears if you are using Windows 2000/XP/Server 2003/Vista.

If you are using Windows 2000/XP/Server 2003/Vista, the [PPD] checkbox only appears if you are using a printer driver that supports the PS3 expansion kit. If you are not using a printer driver that supports the PS3 expansion kit, the [PPD] checkbox does not appear. Go to the next step.

When the PS3 expansion kit is required to use the PS printer driver, this screen does not appear.

If a security warning window appears, be sure to click [Install this driver software anyway].

If a warning message regarding the Windows logo test or digital signature appears, be sure to click [Continue Anyway] or [Yes] button.

After the installation, a message prompting you to restart your computer may appear. If this message appears, click the [Yes] button to restart your computer.
INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER

When the machine cannot be found because it is not powered on or otherwise, installation is possible by entering the name (host name) or IP address of the machine.

When the software selection screen appears in step 6 of “OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)” (page 8), perform the steps below.

1. Click the [Printer Driver] button.

2. Click the [Custom installation] button.

3. When you are asked how the printer is connected, select [LPR Direct Print (Specify Address)] and click the [Next] button.

4. Enter the name (host name) or IP address of the machine and click the [Next] button.

☞ Checking the IP address of the machine (page 7)

* The above screen appears when using the “Disc 1” CD-ROM.

To install the PC-Fax driver, click the [PC-Fax Driver] button on the “Disc 2” CD-ROM.

When the software selection screen appears in step 6 of “OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)” (page 8), perform the steps below.

When the software selection screen is not displayed because it is not powered on or otherwise, installation is possible by entering the name (host name) or IP address of the machine.
When you are asked whether or not you want the printer to be your default printer, make a selection and click the [Next] button.

Follow the on-screen instructions.

Read the message in the window that appears and click the [Next] button.

Installation begins.

When the installation completed screen appears, click the [OK] button.

This completes the installation.

After installation, see “CONFIGURING THE PRINTER DRIVER FOR THE OPTIONS INSTALLED ON THE MACHINE” (page 22) to configure the printer driver settings.

If you installed the PS printer driver or the PPD driver, the PS display fonts can be installed from the “PRINTER UTILITIES” CD-ROM that accompanies the PS3 expansion kit. See “INSTALLING THE PS DISPLAY FONTS” (page 28).

If you are using the machine as a shared printer, see “USING THE MACHINE AS A SHARED PRINTER” (page 21) to install the printer driver on each of the client computers.

If you clicked the [Custom installation] button in step 2, the following windows will appear.

The following windows will appear.

Follow the on-screen instructions.
10

INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER

2 Click the [Standard installation] button.

3 Printers connected to the network are detected. Select the machine and click the [Next] button.

4 A confirmation window appears. Check the contents and then click the [Next] button.

When the printer driver selection window appears, select the printer driver to be installed and click the [Next] button.

Click the checkbox of the printer driver to be installed so that a checkmark appears. When [Custom installation] is selected, you can change the following settings:

- Machine connection method: LPR Direct Print (Auto Search)
- Set as default printer: Yes (excluding the PC-Fax driver)
- Printer driver name: Cannot be changed
- PCL printer display fonts: Installed
- [LPR Direct Print (Auto Search)] only appears if you are using Windows 2000/XP/Server 2003/Visia.

If [Custom installation] is selected, select [LPR Direct Print (Auto Search)] and click the [Next] button.

If you selected other than [LPR Direct Print (Auto Search)], see the following pages:

- LPR Direct Print (Specify Address): page 12
- IPP: page 14
- Shared printer: page 20
- Connected to this computer: page 16
- Standard printer: page 92
- [LPR Direct Print (Specify Address)] only appears if you are using Windows 2000/XP/Server 2003/Visia.

5 When the PC-Fax driver is being installed, this screen does not appear. Go to the next step.

The PS3 expansion kit is required to use the PS printer driver or the PPD driver.

The [PPD] checkbox only appears if you are using Windows 2000/XP/Server 2003/Vista.

If the machine is not found, make sure that the machine is powered on and then click the [Re-search] button.

You can also click the [Specify condition] button and search for the machine by entering the machine's name (host name) or IP address.

☞ Checking the IP address of the machine (page 7)

When [Custom installation] is selected, you can change the following settings:

- PS3 expansion kit
- LPR Direct Print (Specify Address)
- IPP
- Shared printer
- Connected to this computer
- Standard printer
- LPR Direct Print (Auto Search)

When [Custom installation] is selected, you can change the following settings:

- Set as default printer: Yes (excluding the PC-Fax driver)
- Printer driver name: Cannot be changed
- PCL printer display fonts: Installed
- [LPR Direct Print (Auto Search)] only appears if you are using Windows 2000/XP/Server 2003/Visia.

If the PS3 expansion kit is not installed, the following settings are not available:

- PS3 expansion kit
- LPR Direct Print (Specify Address)
- IPP
- Shared printer
- Connected to this computer
- Standard printer
- LPR Direct Print (Auto Search)

When [Custom installation] is selected, you can change the following settings:

- Set as default printer: Yes (excluding the PC-Fax driver)
- Printer driver name: Cannot be changed
- PCL printer display fonts: Installed
- [LPR Direct Print (Auto Search)] only appears if you are using Windows 2000/XP/Server 2003/Visia.
INSTALLING THE PRINTER DRIVER /
PC-FAX DRIVER

To install the printer driver or the PC-Fax driver, follow the appropriate procedure in this section depending on whether the machine is connected to a network or connected by USB cable.

☞ WHEN THE MACHINE WILL BE CONNECTED WITH A USB CABLE (page 16)
WHEN THE MACHINE IS CONNECTED TO A NETWORK

This section explains how to install the printer driver and the PC-Fax driver when the machine is connected to a network.

PC-FAX DRIVER / Installing the Printer Driver
This section explains how to install the software and configure settings so that the printer and scanner function of the machine can be used with a Windows computer.

**OPENING THE SOFTWARE SELECTION SCREEN (FOR ALL SOFTWARE)**

1. Insert the “Software CD-ROM” into your computer’s CD-ROM drive.
   - If you are installing the printer driver or printer status monitor, insert the “Software CD-ROM” that shows “Disc 1” on the front of the CD-ROM.
   - If you are installing the PC-Fax driver or scanner driver, insert the “Software CD-ROM” that shows “Disc 2” on the front of the CD-ROM.

2. Click the [Start] button ( ), click [Computer], and then double-click the [CD-ROM] icon ( ).
   - In Windows XP/Server 2003, click the [start] button, click [My Computer], and then double-click the [CD-ROM] icon.
   - In Windows 2000, double-click [My Computer] and then double-click the [CD-ROM] icon.

3. Double-click the [Setup] icon ( ).

4. The “SOFTWARE LICENSE” window will appear. Make sure that you understand the contents of the license agreement and then click the [Yes] button.

5. Read the message in the “Welcome” window and then click the [Next] button.

6. The software selection screen appears.

   * The above screen appears when using the “Disc 1” CD-ROM.
   * For the steps that follow, see the appropriate page below.

   * In Windows Vista, if a message screen appears asking you for confirmation, click [Allow].

   * You can show the “SOFTWARE LICENSE” in a different language by selecting the desired language from the language menu. To install the software in the selected language, continue the installation with that language selected.

   For using the “Disc 1” CD-ROM.

**INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER**

- **WHEN THE MACHINE IS CONNECTED TO A NETWORK**
  - Standard installation: page 9
  - Installation by specifying the machine’s address: page 12

To connect the machine to a network, connect the LAN cable to the machine's network connector. Use a shielded LAN cable.

### CONNECTING THE MACHINE

#### CONNECTING TO A NETWORK

To connect the machine to a network, connect the LAN cable to the machine's network connector. Use a shielded LAN cable.

#### CONNECTING THE MACHINE WITH A USB CABLE (Windows)

**Setting List:**

Press the [SYSTEM SETTINGS] key, touch the [List Print (User)] key, and then touch the [Print] key of "All Custom Setting List.

You can check the IP address of the machine by printing out the "All Custom Setting List" in the system settings. Follow these steps to print out the "All Custom Setting List" in the system settings.

1. Press the [SYSTEM SETTINGS] key.
2. Touch the [List Print (User)] key.
3. Touch the [Print] key of "All Custom Setting List.

### Checking the IP address of the machine

You can check the IP address of the machine by printing out the "All Custom Setting List".
SOFTWARE REQUIREMENTS

The following requirements must be met to use the software described in this manual.

- Operating system environment
- Type of connection
- Required expansion kits
- Software
- Operating environment

*1 For the types of computers and operating systems that can run the software, see "SYSTEM REQUIREMENTS" (page 5).

*2 To use the PC-Fax driver, Internet Explorer 4.0 or later must be installed on your computer.

*3 When the Internet fax expansion kit is installed, the PC-Fax driver can be updated using the "PRINTER UTILITIES."
VERIFYING SYSTEM REQUIREMENTS

Before installing the software described in this manual, make sure that your computer satisfies the following requirements.

- Printing is not possible in MS-DOS mode.
- USB is not supported. The scanner driver cannot be installed.
- The machine’s USB 2.0 port will transfer data at the speed specified by the USB 2.0 (Hi-Speed) standard only if the Microsoft USB 2.0 driver is preinstalled in the computer, or if the USB 2.0 driver for Windows 2000 Professional, Windows XP Professional, Windows XP Home Edition, Windows 2000 Server, Windows Server 2003, or Windows Vista is installed.
- Cannot be used when the machine is connected with a USB cable. The PC-Fax driver and scanner driver cannot be used.

### Operating System

- **Windows**:

- **Macintosh**:
  - Mac OS X 10.5 to 10.9.1
  - Mac OS X 10.2.8

### Computer Type

- IBM PC/AT compatible computer equipped with a 10Base-T/100Base-TX/1000Base-T LAN board or equipped standard with a USB 2.0/1.1 port.

### Display

- 1024 x 768 dots resolution and 16-bit color or higher.

### Other Hardware

- Recommended for Macintosh users. An environment that allows any of the above operating systems to fully operate.

### Operating System

- Windows 98/Me/NT 4.0
- Contact your dealer or nearest authorised service representative if you want software for Windows 98/Me/NT 4.0.
- Contact your dealer or nearest authorised service representative if you want software for Windows 98/Me/NT 4.0.
CD-ROMS AND SOFTWARE

OTHER CD-ROMS

"PRINTER UTILITIES" CD-ROM that accompanies the PS3 expansion kit
(for Windows/Macintosh)
This contains the display fonts that are used with the PS printer driver.
(Install the PS printer driver and Macintosh PPD file from the "Software CD-ROM".)
☞ INSTALLING THE PS DISPLAY FONTS (page 28)

"PRINTER UTILITIES" CD-ROM that accompanies the Internet fax expansion kit
(for Windows)
This CD-ROM is used to update the PC-Fax driver on the "Software CD-ROM" so that it can be used to send Internet faxes (PC-Fax function).
☞ INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER (page 9)

"Sharpdesk/Network Scanner Utilities" CD-ROM (for Windows)
This contains software that helps you get the most out of the images that you scan on the machine. The software includes "Sharpdesk", a desktop document management application that enables integrated management of scanned images and those created using a variety of applications. To use the "Scan to Desktop" scanner function, the "Network Scanner Tool" must be installed from the CD-ROM.
This contains software that helps you get the most out of the images that you scan on the machine. The software includes "Sharpdesk", a desktop document management application that enables integrated management of scanned images and those created using a variety of applications. To use the "Scan to Desktop" scanner function, the "Network Scanner Tool" must be installed from the CD-ROM.

"PRINTER UTILITIES" CD-ROM that accompanies the PS3 expansion kit
(for Windows/Macintosh)
This contains the display fonts that are used with the PS printer driver.
(Install the PS printer driver and Macintosh PPD file from the "Software CD-ROM".)
☞ INSTALLING THE PS DISPLAY FONTS (page 28)
The scanner driver and PC-Fax driver cannot be used in a Macintosh environment. The machine must be connected to a network. A USB connection cannot be used.

The PS3 expansion kit is required to use the machine as a printer in a Macintosh environment. This is the printer description file which enables the machine to be used as a PostScript 3 compliant printer.

☞ INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER (page 9)

The following software can be used only when the machine is connected to a network.

PC-Fax driver

This enables you to send a file from your computer as a fax using the same procedure as when printing the file.

☞ INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER (page 9)

Software for Macintosh

PPD file

This is the printer description file which enables the machine to be used as a PostScript 3 compliant printer.

☞ MAC OS X (page 31)

☞ MAC OS 9.0 - 9.2.2 (page 36)

The PS3 expansion kit is required to use the machine as a printer in a Macintosh environment.

The following software can be used only when the machine is connected to a network.

MAC OS 9.0 - 9.2.2 (page 31)

☞ INSTALLING THE SCANNER DRIVER (page 26)

The scanner driver and PC-Fax driver cannot be used in a Macintosh environment. Even if the fax function is not installed, the PC-Fax driver can be updated using the CD-ROM in the Internet fax expansion kit to enable you to send a file from your computer as an Internet fax in the same way as you print a file. This enables you to send a file from your computer as a fax using the same procedure as when printing the file.

☞ INSTALLING THE SCANNER DRIVER (page 26)

Software for Windows

PPD file

This is the printer description file which enables the machine to be used as a PostScript 3 compliant printer.

☞ INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER (page 9)

The following software can be used only when the machine is connected to a network.

PC-Fax driver

This enables you to send a file from your computer as a fax using the same procedure as when printing the file.

☞ INSTALLING THE PRINTER DRIVER / PC-FAX DRIVER (page 9)
This chapter describes the software programs that allow you to use the printer and scanner functions of the machine, the CD-ROMs that contain the software, and the pages where the installation procedures can be found.

SOFTWARE AND SOFTWARE

Before installing the software, make sure that your computer and the machine meet the system requirements described in "VERIFYING SYSTEM REQUIREMENTS" (page 5). The CD-ROMs that contain the software, and the pages where the installation procedures can be found.

The Software CD-ROMs

The software CD-ROMs that accompany the machine contains the printer driver and other software. The software CD-ROMs consist of 2 discs.

CD-ROMS AND SOFTWARE

For users of Windows 98/Me/NT 4.0

Contact your dealer or nearest authorized service representative if you want software for Windows 98/Me/NT 4.0.

DISC 1

SOFTWARE FOR WINDOWS

- Printer Driver
  - PCL printer driver
    - PCL6 and PCL5c printer driver
      - PCL6 printer driver
        - PCL6 and PCL5c printer driver
          - PCL6 and PCL5c printer driver

  - PostScript driver
    - PostScript driver supports the PostScript page description language developed by Adobe Systems Incorporated.

  - PPD driver
    - PPD driver enables the machine to use the standard Windows PostScript printer driver.

  - Printer Status Monitor (can only be used when the machine is connected to a network)
    - This allows you to monitor the status of the machine on your computer screen.

☞ WHEN THE MACHINE IS CONNECTED TO A NETWORK (page 9)
☞ WHEN THE MACHINE WILL BE CONNECTED WITH A USB CABLE (page 16)

FOR USERS OF WINDOWS 98/ME/NT 4.0

Contact your dealer or nearest authorized service representative if you want software for Windows 98/Me/NT 4.0.

Thank you for purchasing this product. This manual explains how to install and configure the software that allows the machine to be used as a printer or scanner for a computer.

This manual also explains how to install the printer drivers and software that are used when the expansion kits are installed, and how to install the scanner driver.

If the software is not installed correctly or you need to remove the software, see “4. TROUBLESHOOTING” (page 38).

Please note
- This manual explains how to install and configure the software that allows the machine to be used as a printer or scanner for a computer.
- The SOFTWARE LICENSE will appear when you install the software from the CD-ROM. By using all or any portion of the software on the CD-ROM or in the machine, you are agreeing to be bound by the terms of the SOFTWARE LICENSE.
- For information on your operating system, please refer to your operating system manual or the online Help function.
- The explanations of screens and procedures in this manual are primarily for Windows Vista® in Windows® environments, and Mac OS X v10.4 in Macintosh environments. The screens may vary depending on the version of the operating system.
- Wherever “MX-xxxx” appears in this manual, please substitute your model name for “xxxx”.
- The display screens, messages, and key names shown in the manual may differ from those on the actual machine.
- The explanations in this manual assume that you have a working knowledge of your Windows or Macintosh computer.
- Considerable care has been taken in preparing this manual. If you have any comments or concerns about the manual, please contact your dealer or nearest authorized service representative.

SOFTWARE LICENSE

The SOFTWARE LICENSE will appear when you install the software from the CD-ROM. By using all or any portion of the software on the CD-ROM or in the machine, you are agreeing to be bound by the terms of the SOFTWARE LICENSE.

Warning

There is no warranty for the product or its options or other failures, for any damage that occurs and/or loss of data, and no compensation for failure to obtain the product or its options due to problems with the product or its options during the use of the product or its options.

This product has undergone strict quality control and inspection procedures. In the unlikely event that a defect or other problem is discovered, please contact your dealer or nearest authorized service representative. Consult your dealer or nearest authorized service representative.

The explanations of screens and procedures in this manual may differ from those on the actual machine due to product improvements and modifications. The display screens, messages, and key names shown in the manual may differ from those on the actual machine.

The display screens, messages, and key names shown in this manual may differ from those on the actual machine.

For some functions and procedures, the explanations assume that the peripheral devices are used and that the expansion kits are installed.

PLEASE NOTE

If the software is not installed correctly or you need to remove the software, see “4. TROUBLESHOOTING” (page 38).
